

# KELLY NGUYEN

---

I'm a software engineer based out of Austin, Texas. I build robust websites and applications, with a focus on front-end React development. I am in love with creating and designing memorable user experiences, bringing aesthetic pleasure and functionality together.

---

## EXPERIENCE

|                          |   |                                    |   |                      |
|--------------------------|---|------------------------------------|---|----------------------|
| Full Stack Javascript    | - | <b>Austin Coding Academy</b>       | - | Jan 2019 - Sept 2019 |
| Data Analyst             | - | <b>Fresenius Medical Care</b>      | - | June 2019 - Present  |
| Quality Data Entry       | - | <b>Fresenius Medical Care</b>      | - | Aug 2017 - June 2019 |
| Administrative Assistant | - | <b>Shell Oil &amp; Gas Company</b> | - | June 2012 - Aug 2013 |

---

## DEVELOPMENT PROJECTS

**Brewery App** - CSS • JS • JSX • React

**Daimler Trucks** - HTML • CSS • JS • Meteor • AI Tech

**CarePortal** - HTML • Bootstrap • JS • Node.js • Handlebars

**Austin Coding Academy** - HTML • CSS • JS • React

**Fresenius Medical Care** - SQL • PowerBI

### I love problem solving, which is exactly what I do when I

- Create and implement various UI features and enhancements on **CarePortal**, an app that placed **first** in a community hackathon
- Implemented UI designs for the Daimler Truck Hackathon application
- Develop multiple dashboards in **PowerBI** pulling in custom **SQL** queries at Fresenius
- Built a SPA prototype that allows users to input their location that will filter out selections to nearby options using React/Redux, Express, and MongoDB

### I also have a strong sense for creativity and seeing “the big picture”, which allowed me to

- Generate new concepts and develop fresh designs for applications
- Provide valuable insights when analyzing data and code with a strong power of observation
- Take on challenging tasks and develop creative solutions through critical thinking

## EDUCATION

**Austin Coding Academy** - 2019  
Full Stack Web Development

**University of Texas at Austin** - 2017  
BS, Nutrition and Health

---

## TECHNICAL

- HTML5/CSS3
  - JavaScript ES6
  - ReactJS
  - Redux
  - Node.js
  - Express
  - Git / Github
  - MongoDB
  - SQL
  - jQuery, AJAX, APIs
  - Bootstrap
  - Materialize
-
